.Net developer

Linkedin: linkedin.com
GitHub: https://github.com/Kasterov

Summary	.Net developer with a more than year of work commercial experience, who knows how to work with agile methodology and who has already been involved in many iterations. I consider it my greatest achievement to have been involved in the release of a project for a public organization “Historical platform” called Streetcode. I prefer back-end logic development, although I have worked with front-end web applications as well. In the future, I would like to become more familiar with application deployment.
Experience	
Position	**Junior .Net Full-stack developer**
Period	16.01.2023 - present
Project	https://github.com/ita-social-projects/StreetCode/wiki
